T/30' HOSPITAL

Shouldn't be taboo to breathe loud" feeling bad at possible birth + was trying to say "as weird as it sounds - to relieve environmental &/or individual factors - I think I should burst a nut and assist my own bowel movement and stop blaming dissociating in environment

→ Pregnant Breathwork

11:30 first seen, 12:20 current

UPSET: NO FOOD & medical efficacy of small meals / bowel passing / also what a place to give birth / would prefer (self) natural environment (water sound) less people / rando's / NPC's less environmental noise / electro magnetic or pin droppins silence — Hard to Breathe III

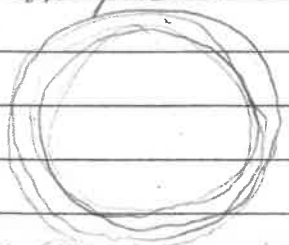
Resent 4/23. Thurs 24

Good Company ~ Soak it up,

What a Wonderful Privilege

They can't stop you from drawing a circle on behaviorism / Brainwashing / conditioning / delegation of attention Spent



4/23 - Fever / like (4) episodes we have had (each 8 days) Heart ache / smell alteration, exhausting / yet productive / (prints - yet no $, but to Blaine & Bellingham)

4/24-25 (@ mission)

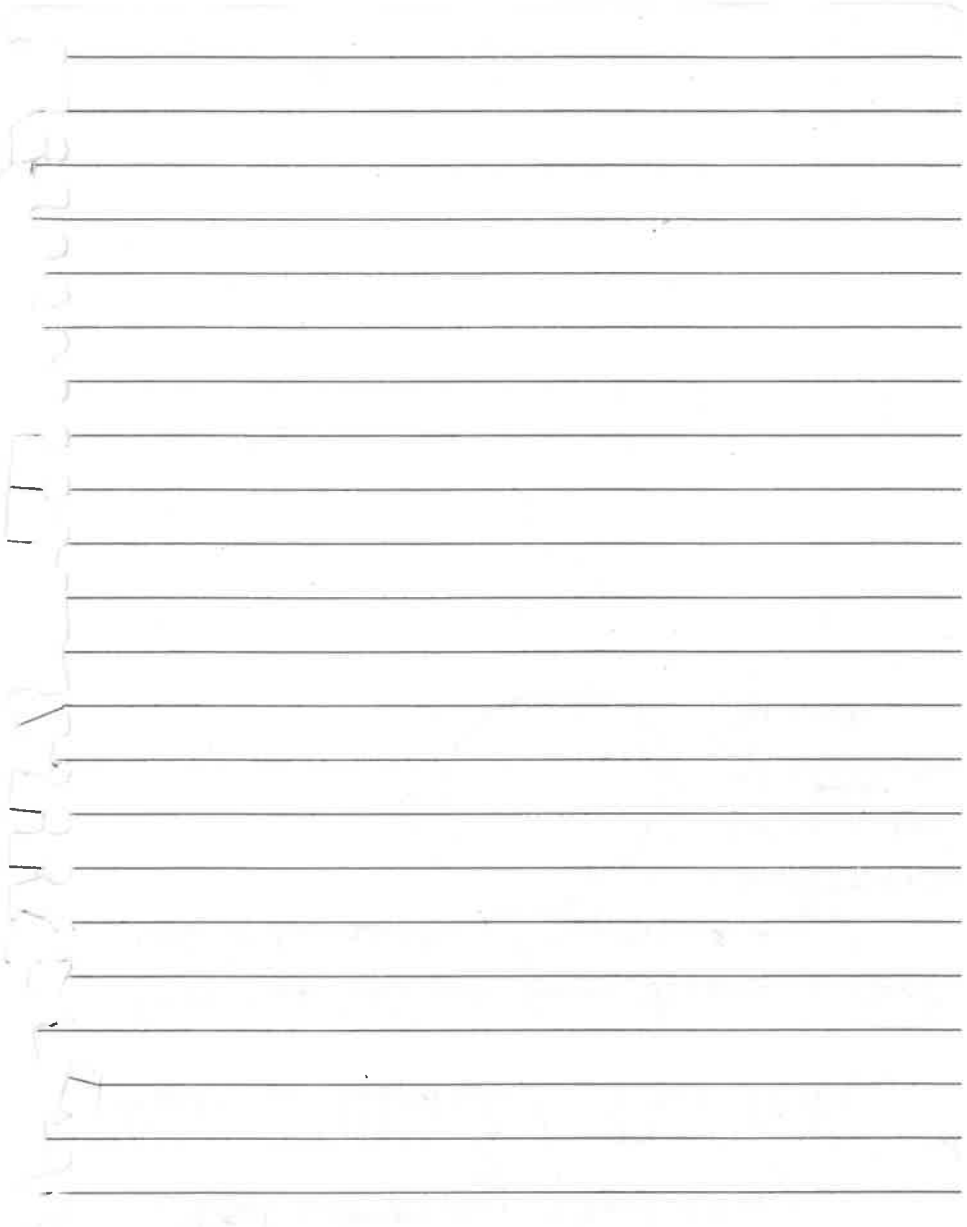
→ Presumed Covid test in Canada

Symptoms begin 4/25th 1) (much coagulation/snot/fever

2) loss/change in smell (returns by 4/28)

3) Slight Headache

4) easily cold for a bit

shakes & / anti psychotic shot


feels like leech/bone bumps 2
